About JEET

Delivering Quality & Reliability in Fasteners Since 1994

Established by Mr. Prafulbhai Mungra in 1994, Jeet Fasteners is a trusted manufacturer and exporter of high-quality MS screws and fastening solutions. With decades of expertise, advanced cold forging facilities, and an in-house tool room, we deliver products that meet international standards and customer-specific requirements with unmatched precision.

- ✓ Precision manufacturing with ISO/DIN/JIS standards
- ✓ Capability to produce custom fasteners from drawings & samples

Our Vision

To be a global leader in fastening solutions with consistent quality and innovation.

Our Strength

Equipped with a modern tool room and cold forging plant for unmatched accuracy.

Our Commitment

Delivering durable, high-performance screws trusted by industries worldwide.

Our Journey

Milestones of JEET FASTENERS

1994

Foundation of Narmada Fasteners

Established our very first unit at Plot No. 515, Phase 2 Dared, marking the beginning of our journey with basic screw production lines (3mm x 25 and 5mm x 50). This laid the foundation of our legacy in fastener manufacturing.

2011

Expansion into a Larger Facility

Shifted operations to a larger rented unit at Plot No. 4488, enabling us to expand production capabilities. With enhanced capacity, we scaled our screw manufacturing output to meet growing demand in the domestic market.

2015

Technological Advancements

Upgraded to a bigger facility at Plot No. 4397 and introduced advanced Taiwanese machinery. Added zinc & nickel plating plants, automatic packaging systems, and slot-cutting technology. This phase was a turning point, modernizing operations for greater efficiency and quality.

2019

Birth of Jeet Fasteners

Established Jeet Fasteners with a vision for exports beyond state and national boundaries. Built a modern 5000 sq. ft. manufacturing facility equipped with state-of-the-art machinery to cater to international markets.

2025

Achieving New Heights

Today, Jeet Fasteners operates with 60+ machines across manufacturing, packaging, and plating units. With a production capacity of 50 metric tons per month, we continue to lead with innovation, reliability, and global reach.

Our Manufacturing Process

From Raw Wire to Ready-to-Dispatch Fasteners

Wire Sourcing

High-grade wire imported from Rajkot to ensure strong and consistent base material.

Screw Head Making

Precision cold-forging machines shape durable and uniform screw heads.

Cutting

Wires are cut precisely into defined lengths for accurate screw formation.

BT Cut

Threading and slotting with advanced BT cut machines for perfect fit.

Washing

Caustic drum washing removes impurities for a clean, polished surface.

Zinc Polish

Protective zinc coating for corrosion resistance and long-lasting performance.

Temperature & Colour

Controlled heat treatment and coloring ensure strength and consistent finish.

Packaging

Packed in 2-4 pcs sets or bulk, using automatic packaging machines.

Dispatch

Final QC cleared screws dispatched worldwide with proper labeling & logistics.
